TRAINING EXERCISE
COLOR ADJUSTMENTS FROM PRINT DRIVER

STEP 1:

For the purpose of this demonstration, we have opened a PDF document and have opened the Print dialogue box.

Select the Properties button on the PCL6 driver.

Note: Your dialogue window may vary depending on the version of Acrobat and operating system you are using.

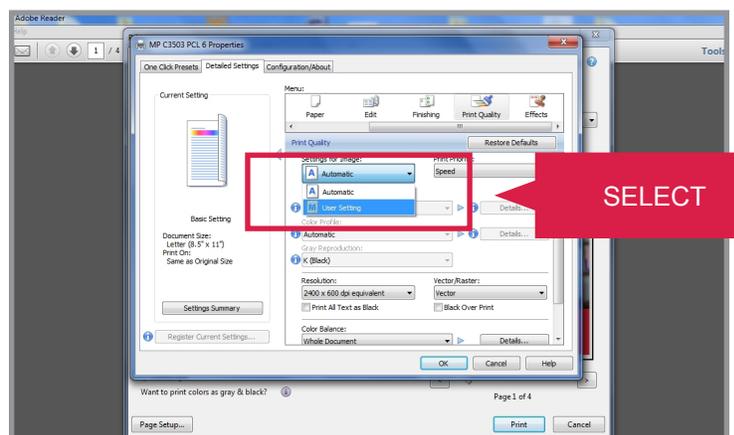

STEP 2:

From the Detailed Settings tab Select Print Quality.

Note:You may have to use the scroll bar under Menu options.

STEP 3:

In the Setting for Image pulldown menu, Select User Setting to have the ability to change the options.
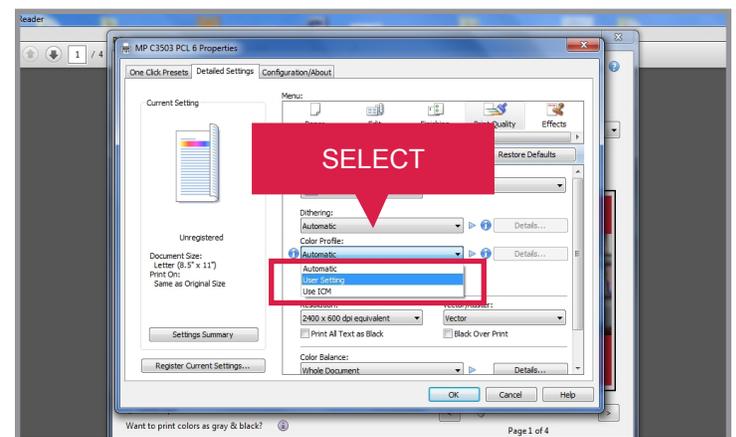

STEP 4:

Select the Color Profile drop-down menu.

STEP 5:
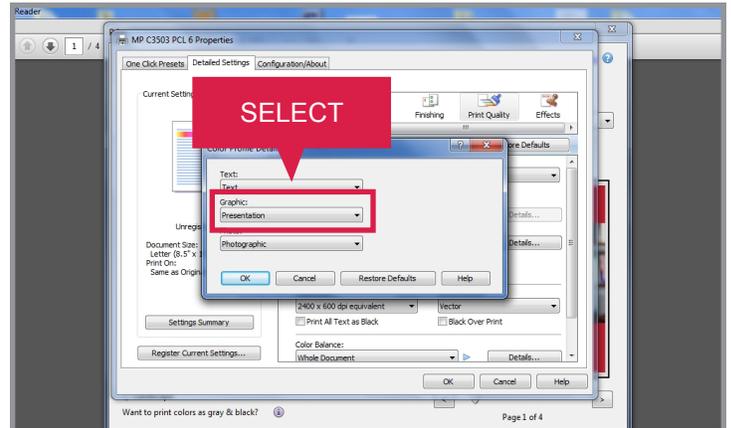

Select User Settings.

STEP 6:

Select the Details button for Color Profile options.
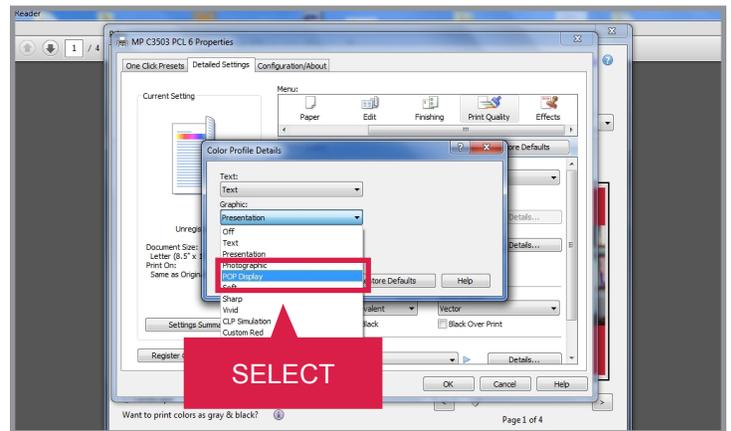

COLOR ADJUSTMENTS FROM PRINT DRIVER
