Career Exploration Solutions

Why TN CCP?

1. Support regional alignment of higher education to labor market demands and reveal clear, current and accurate career information
2. Surface advising, education, support, and/or employment resources
3. Complement other advising resources within other foundation investments and leverage all of the great resources already supporting Tennesseans
4. Complement the functionality of IPASS to provide learners with relevant and up-to-date career exploration data and information, impacting degree completion

Where Will It Make Impact?

The screenshot shows the Tennessee Regions website. At the top left is the 'TENN' logo with the tagline 'LEARN. WORK. THRIVE.'. The navigation bar includes links for 'Explore Jobs', 'Learn about Industries', 'Find Educators', 'Get Prepared', 'My Saved Items', and 'MY REGION Memphis'. The main header features a scenic background of mountains at sunset with the text 'TN Regions' and 'Learn about top industries, careers and trends in your region'. Below this is a row of eight region buttons: 'GREATER MEMPHIS' (highlighted in orange), 'NORTHWEST', 'SOUTHWEST', 'NORTHERN MIDDLE', 'SOUTHERN MIDDLE', 'UPPER CUMBERLAND', 'EAST', 'SOUTHEAST', and 'NORTHEAST'. The 'Greater Memphis' section is expanded, showing the title 'Greater Memphis' and a button 'Make this My Region' with a heart icon. Below the button is a map of Tennessee with the Memphis area highlighted in blue.

How Will It Function?

- In-demand industries
- Interactive maps
- Featured employer, educators and CBO's
- State and local initiatives
- Job matching
- Career, workforce and education resources
- Job descriptions
- Popular pathways
- Region-specific information

The screenshot shows the homepage of the Tennessee is Working website. At the top, there is a navigation bar with the Tennessee logo and links for Explore Jobs, Learn about Industries, Find Educators, Get Prepared, My Saved Items, and My Account. The main header features a large image of a woman in a hard hat with the text "Tennessee is Working" and "Getting you connected with education and a thriving career". Below this is a row of icons for various services: Get Ready to Work, Find a Job, Connect with Employers, Find a Program, Find a School, Find a Region, Find a Career, and Find a School. The middle section has three main buttons: "Find a Career" (with the text "There is a job that fits you"), "Find Education" (with "There is a program for you"), and "All Around You" (with "Learn about TN Regions"). Below these is a map titled "FIND EMPLOYERS, EDUCATORS AND ADVISORS AROUND YOU" showing various locations with icons. To the right of the map is a "FILTER YOUR RESULTS" sidebar with options for "LOCATE ME", "SHOW ALL", "COMPANIES", "EDUCATORS", and "ADVISORS". At the bottom, there are four circular icons with text: "Get Prepared" (Employers expect professional workers), "Be on Time" (Sooners like 'too daa' but 65% of employees lose their jobs due to tardiness), "Dress the Part" (Tommy Jeans? Nope, don't wear them to the interview or the job. Dress professionally, look your best!), and "Pass the Test" (If you are doing drugs you will not be hired, and will be fired if you do them on the job. Make good choices).

Radiology Technician

Also Known as: Rad Tech, Radiologic Technologist, Radiology Technician

Radiology Technician crosses over into: [Hospitality](#), [Construction](#)

Associate Degree and Certification

The primary role of a radiologic technologist (also called an x-ray technologist or radiographer) is using medical imaging equipment to produce images of tissues, organs, bones, and vessels and, with advanced training, assisting in the administration of radiation therapy treatments. Radiologic technologists can also specialize in specific areas of the radiology field such as magnetic resonance imaging (MRI), sonography, mammography, computed tomography (CT), nuclear medicine, and radiation therapy.
