6/22/2016 11:27 AM	System	Modified *(via import)*		ERP Sync	PellissippiState | Banner ID	*empty*	P20032075	
6/22/2016 11:27 AM	System	Modified *(via import)*		ERP Sync	MotlowState | Banner ID	*empty*	AP1	
6/22/2016 11:27 AM	System	Created *(via import)*	Fulfillment Center: null					
6/22/2016 11:27 AM	System	Modified *(via import)*		ERP Sync	MotlowState | Export Type	Do not export	Export all data	

The Vendor exists in your Banner and in TSM but is not synced to your school's ERP – in the above example TBR is not synced to this vendor, only Motlow and Pellissippi. This vendor exists in my TBR Banner so I want to sync it.

You choose to sync it to your school BUT first must add the Banner ID# and the corresponding Banner Address Sequence for the Remittance and Fulfillment addresses. This will prevent duplicate AP/PO addresses and additional address sequence numbers from being created in your Banner.

The system will update your vendor record correctly without creating a duplicate address and another address sequence#.

6/22/2016 11:27 AM	System	Created *(via import)*	Fulfillment Center: null				
6/22/2016 11:27 AM	System	Modified *(via import)*		ERP Sync	MotlowState | Export Type	Do not export	Export all data
6/22/2016 11:27 AM	System	Modified *(via import)*		ERP Sync	MotlowState | Banner ID	*empty*	A00123381
6/21/2016 3:39 PM	System	Modified *(via import)*	Address: 42 W 18Th St (Fulfillment)	Addresses	Address ID	*empty*	20001599-2
6/21/2016 3:39 PM	System	Created *(via import)*	Address: 42 W 18Th St	Addresses			

The vendor synced successfully to Banner and the correct AP and PO address sequence.

*Note – this only applies when performing the initial sync from TSM to your Banner vendor for this scenario only; all future (non-address) updates to this vendor record will not cause duplicate address records.
