

Council of Buyers (COB) After FOCUS

The COB Meeting agenda request and COB mailout materials will continue to go out to both university and community college procurement and contracts officers. At the beginning of each COB meeting, the System Office will ask university members that are present which agenda items they are interested in and move those to the top of the agenda. After those items have been discussed, university members will move to a separate room, if they have requested space and space is available, to discuss topics of their choosing. The community college/TCAT members will continue with the remaining COB agenda items and will be the sole voting members of the COB.

The COB representation will change to add some additional TCAT representatives.
